

The PR-600 by Brother is easy to learn and fun to use! Here are some facts that we thought you would find interesting!

Beginning is simple...it just takes two...

- ✚ 2 people can easily lift a machine that weighs less than 90 pounds
- ✚ Want to know more...it comes with an Instructional CD...plug it into your computer...watch it and your ready to embroider!
- ✚ The PR-600 is like your car...it has speed control and you're in charge... start slow at 600 spm or finish fast at 1000 spm...it's your choice and you can change your mind whenever you want. The PR-600 doesn't mind if you want to alter the speed even while it's running!
- ✚ If you have 3 square feet...you're in business.... set it up and go, go, go!

Innovation and Technology...

...Brother PR-600

It's like a new little puppy but it won't be outgrowing your studio anytime soon...and it doesn't eat much...

- ✚ Just oil the bobbin race every time you use it
- ✚ For starters you will want to use 40 wt. Rayon thread, but as you gain more confidence you will want to experiment with different threads...even metallics!
- ✚ The PR-600 is good on it's feet too...they're adjustable
- ✚ Put the PR-600 on the optional stand and it's ergonomically correct
- ✚ Want to know if it's time to take the PR-600 in for it's periodic check up??? It can calculate the total number of stitches sewn or the total sewn since it's last Machine Maintenance visit.

Needles and more needles...

- ✚ Brother 130HEBR/Schmetz 130/705/HE, they're flat backs and strong
- ✚ A 6-needle machine is not limited to designs that only have 6 colors
- ✚ The PR-600 is smart... whether your pattern has 7 or 77 colors...the machine will stop when you need to change thread spools
- ✚ The PR-600 can calculate how quickly you can finish your projects
- ✚ The PR-600 stops at pre-determined color changes to allow a new thread to be installed and you can program the thread colors to specific needles.
- ✚ The Needle threader threads whatever needle you select...saving you time!

Threads make it happen on the top...

- ✚ Thread tower delivers thread from 6 spools
- ✚ Start with small spools or move up to industrial size.
- ✚ Threading is easy...follow the marked path right to the eye of the needle!
- ✚ Thread charts for reference or customization to organize your projects

And the bottom...

- ✚ The PR-600 comes with "L-type" pre-wound bobbins, but you can use the optional bobbin winder to wind your own as well.
- ✚ Do you have some extra PQ-1500s bobbins? They will work too!

Innovation and Technology...

...Brother PR-600

Everyone loves baseball caps...bucket hats or children's tulip hats!

- ✚ Easily set up the PR-600 to embroider hats for everyone
- ✚ View on-board installation tutorials
- ✚ Personalize with any of the built-in fonts
- ✚ Program thread stops for multi-color messages
- ✚ Adjust thread density for a bold look

Convenient features give you control...for quality results...

- ✚ Brim press secures the hat
- ✚ Sweat guard keeps embroidery area clear
- ✚ Needle plate spacer improves stitch quality
- ✚ Reference lines for accurate design placement and centering

...there's even a mounting jig!

...Brother PR-600

It's your choice...

- ✚ Brother embroidery cards...use the designs that you have collected but remember the PR-600 prefers cards made for Brother Machines
- ✚ CompactFlash... 32/64/128.... take it to the limit, save/import data quickly!
- ✚ Floppy Disks....convenient storage
- ✚ USB connection let's you easily connect your PC to the PR-600, just hook it up and you are ready to exchange information. Store thousands of designs in your computer and send them to the machine as you need them!

What language does the PR-600 understand????

- ✚ . pes, .dst, or .phc

You'll be impressed at how much creativity the PR-600 can deal with!!!

- ✚ 500,000 stitches
- ✚ 500 color changes
- ✚ 100 combined patterns
- ✚ Change density of your favorite fonts or the built in frame patterns +/- 20%
- ✚ Size designs up or down...from 120% to 90% of the original size.

And there's more...and more!

Innovation and Technology...

...Brother PR-600

- ✚ Repeat designs over and over...what's the limit???100 times or 500,000 stitches...whichever comes first
- ✚ Perfectly space patterns as they repeat themselves
- ✚ 8 different directions for you patterns to follow

And it has a great memory!!!

- ✚ The PR-600 can actually remember where it left off even if you turn off the machine...it can finish the design 1,2 3!
- ✚ Jump stitches or short stitches...the PR-600 know what's best for each design!
- ✚ Thread tails can be cut long or short.... great for metallics

And it can think in reverse!!!

- ✚ Break a thread or run out of bobbin thread.... sensors tell the machine and it stops!
- ✚ Take a moment to troubleshoot what has happened...back up 1/10/100 stitches to pick up where you left off!

Finally, while we're on the subject of technology...just can't envision it???

- ✚ Movies...they're built in...machine set-up, threading, bobbin winding, etc.
- ✚ Instructional CD...look and listen
- ✚ Instruction Manual...read about it at your own pace
- ✚ www.brother.com for more information.... including free updates for your machine!

Frames that send a message...to the PR-600

- ✚ Comes with 4 frames
- ✚ Knows which frame has been installed
- ✚ Allows the use of other frames

Trial and no more error!!!

- ✚ Plastic reference grids replicate the grids appearing on the LCD screen
- ✚ Tracing tool marks outer points of the design for accurate placement of a design
- ✚ Lower the needle to determine the exact needle drop
- ✚ Built-in test pattern for determining the correct thread tension
- ✚ Realistic preview views a design in it's hoop before you sew

Do not take it out of the hoop...

- ✚ Rotate your pattern in 1° increments for perfect placement without rehooping

Fabric Management

- ✚ Free-arm construction allows easy access for tubular garment embroidery
- ✚ Designed to work in harmony with today's fabrics and stabilizers
